

## Order Planner 2024

Use this sheet to help you organize your order! When you're ready, please use any of the methods below to place your order.

### Order Online ([scottlab.com](http://scottlab.com))

---

Our easy-to-use website makes planning and submitting your orders easier than ever. Try one or all of these convenient features:

#### **QUICK ORDER SHOPPING CART**

Our website's shopping cart allows you to quickly enter orders without navigating to every item page. Simply open the site directly to [scottlab.com/shop/basket](http://scottlab.com/shop/basket) and start entering search terms or item numbers.

#### **REORDER**

Head to the My Account section ([scottlab.com/profile](http://scottlab.com/profile)) of the site and you can search back through your past Invoices and Shipments. If you have an order that you want to re-create, click the handy "Reorder" button to load the items from that invoice or shipment into your shopping cart.

#### **LISTS**

If you have groups of items that you order regularly or want to save for quick re-ordering, our Lists feature is perfect for you. You can easily create a new saved product list from a shopping cart you've assembled, offering a seamless transition from browsing to buying. Alternatively, new lists can be directly created from the "Saved Lists" page available in the "My Account" section of our site, using a handy product search and quick-add feature. When you're ready, one-click adds the entire list to your shopping cart, streamlining your purchasing process. Additionally, you can build recurring lists using the same "quick add" function on the shopping cart page, making it great for recurring purchases.

---

### Order via Phone

If submitting an order over the phone, have your item numbers and quantities ready by referencing this document. To submit an order over the phone, please call us at 707-765-6666.

Rev. 03/14/2024 - Prices are subject to change, for the most up-to-date information, see [scottlab.com](http://scottlab.com)
